CRIDO

Our services

We support investors with respect to tax and legal matters, throughout the whole process of their investment and operations in Poland. We act as a one-stop shop for foreign investors so that the relevant tax and legal compliance as well as contact with local authorities does not engage our client beyond of what is necessary.

I. Tax and legal (corporate) services with respect to entering into Polish market

- advising on the relevant legal form of the investment and its tax consequences
- analysis of the optimal use of tax benefits (such as special economic zones, R&D relief, IP BOX) and support in obtaining tax and grants investment incentives
- assisting in all necessary tax and legal formalities related to setting up a business in Poland

II. Financing of the investment

- Complex advisory with respect to obtaining state-aid financing, from preparation of all necessary documentation and motions through settlement of obtained financing
- Advising on tax and legal aspects related to financing of the investment, including necessary negations with the third-party financing institutions and verifying relevant financing agreements

Our services

III. Title to the real estate

- Representing in negotiations related to real estate title (lease, acquisition of real estate etc)
- Supporting and representing in front of relevant authorities with respect to acquisition of the Real estate in Poland
- Review of the relevant agreements related to real estate title

IV. Employment

- Advising on most suitable form of employment / contract – depending on scope of the investment
- Review of the employment agreements
- Assisting in preparation of all necessary internal and external documents / policies required by law, related to employment
- On-going tax, social security contributions and legal compliance related to employees

V. Day to day legal and tax services, bookkeeping and accounting*

- On- going tax advisory with respect to all applicable taxes as well as tax compliance
- One-stop-shop in all areas of law which may be faced by potential business entity in Poland, in particular: corporate, commercial and civil law, employment, IP, real estate and litigation
- Keeping contact with the local authorities to clear questions arisen in connection with the operations
- Representation in any local tax and legal authority audits

*some of the services may be performed in partnership with our reliable third-party service provider.
